VOLUME 44

LIST OF CONTENTS

Number 1

Editorial

Alvan R. Feinstein and Walter O. Spitzer — 1 — An expression of gratitude to the **Journal**'s reviewers

Original Articles

Eyassu Habte-Gabr, Robert B. Wallace, Patricia L. Colsher, James R. Hulbert, Lon R. White and Ian M. Smith — 5 — Sleep patterns in rural elders: demographic, health, and psycho-behavioral correlates

Anne B. Newman, Kim Sutton-Tyrrell, Gale H. Rutan, Julie Locher and Lewis H. Kuller — 15 — Lower extremity arterial disease in elderly subjects with systolic hypertension

Surya Shah, Frank Vanclay and Betty Cooper — 21 — Stroke rehabilitation: Australian patient profile and functional outcome

Theodore R. Holford, George C. Roush and Lisa A. McKay — 29 — Trends in female breast cancer in Connecticut and the United States

K. L. Lamb and D. A. Brodie — 41 — Leisure-time physical activity as an estimate of physical fitness: a validation study

A. C. Hauser, K. Derfler and P. Balcke — 53 — Progression of renal insufficiency in analgesic nephropathy: impact of continuous drug abuse

Susan Kune, Gabriel A. Kune, Lyndsey F. Watson and Richard H. Rahe — 57 — Recent life change and large bowel cancer. Data from The Melbourne Colorectal Cancer Study

H. H. McDuffie — 69 — Clustering of cancer in families of patients with primary lung cancer

Walter W. Hauck, John M. Neuhaus, John D. Kalbfleisch and Sharon Anderson — 77 — A consequence of omitted covariates when estimating odds ratios

William M. McClellan, Carol Anson, Kay Birkeli and Elbert Tuttle — 83 — Functional status and quality of life: predictors of early mortality among patients entering treatment for end stage renal disease

Andrew D. Oxman, Gordon H. Guyatt, Joel Singer, Charlie H. Goldsmith, Brian G. Hutchison, Ruth A. Milner and David L. Streiner — 91 — Agreement among reviewers of review articles

Letter to the Editors

Tage S. Kristensen, Ole Olsen and Lars Møller — 99 — Mistakes in "established wisdom" about cigarette smoking?

Carl C. Seltzer — 100 — Response

Number 2

Editorial

Walter O. Spitzer — 103 — Meta-meta-analysis: unanswered questions about aggregating data

Variance and Dissent: Presentation

Richard A. Kronmal, Coralyn W. Whitney and Stephen D. Mumford — 109 — The intrauterine device and pelvic inflammatory disease: the Women's Health Study reanalyzed

Variance and Dissent: Dissent

Ronald T. Burkman, Nancy C. Lee, Howard W. Ory and George L. Rubin — 123 — Response to "The intrauterine device and pelvic inflammatory disease: the Women's Health Study reanalyzed"

Original Articles

Joseph L. Fleiss and Alan J. Gross — 127 Meta-analysis in epidemiology, with special reference to studies of the association between exposure to environmental tobacco smoke and lung cancer: a critique

Eric J. Feuer, Larry G. Kessler, Stuart G. Baker, Helen E. Triolo and Donald T. Green — 141 The impact of breakthrough clinical trials on survival in population based tumor registries

Lawrence R. Murphy — 155 Job dimensions associated with severe disability due to cardiovascular disease

Lois M. Verbrugge, Donna M. Gates and Robert W. Ike — 167 Risk factors for disability among U.S. adults with arthritis

William B. Kannel, L. Adrienne Cupples, Ratna Ramaswami, Joseph Stokes III, Bernard E. Kreger and Millicent Higgins — 183 Regional obesity and risk of cardiovascular disease; the Framingham Study

Miguel A. L. Nicolelis and Luiz A. Baccala — 191 Rhythmic bacterial susceptibility to antibiotics at a large hospital

Second Thoughts

Joseph Herman — 207 The numbers game

Letters to the Editors

Richard A. Kronmal, Coralyn W. Whitney and Stephen D. Mumford — 211 Reply to the dissent offered by Burkman *et al.*

Sander Greenland and Hal Morgenstern — 213 Design versus directionality

Michael S. Kramer and Jean-François Boivin — 215 Response: Why directionality is important

Comment to the Editors

David L. Sackett — 217 Clinical reality, binary models, babies and bath water

Alvan R. Feinstein — 219 Response

Number 3

Commentary

W. Douglas Thompson — 221 Effect modification and the limits of biological inference from epidemiologic data

Original Articles

Lance K. Heilbrun, Philip D. Ross, Richard D. Wasnich, Katsuhiko Yano and John M. Vogel — 233 Characteristics of respondents and nonrespondents in a prospective study of osteoporosis

Samy Suissa — 241 Binary methods for continuous outcomes: a parametric alternative

H. Löwel, M. Lewis, A. Hörmann and U. Keil — 249 Case finding, data quality aspects and comparability of myocardial infarction registers: results of a south German register study

Klaus Lauer — 261 The history of nitrite in human nutrition: a contribution from German cookery books

Eva Skovlund and Lars Walløe — 265 Sequential or fixed sample trial design? A case study by stochastic simulation

Henrica C. W. de Vet, Paul G. Knipschild, Dirk Willebrand, Hubert J. A. Schouten and Ferd Sturmans — 273 The effect of beta-carotene on the regression and progression of cervical dysplasia: a clinical experiment

Shunzo Maetani, Hisashi Onodera, Toshikuni Nishikawa and Takayoshi Tobe — 285 Systematic computer-aided search of optimal staging system for colorectal cancer

George Howard, Joni K. Brockschmidt, Bruce M. Coull, Caroline Becker, John Feibel, Michael D. Walker, Kenneth R. McLeroy, James F. Toole and Frank M. Yatsu — 293 The Community Hospital-based Stroke Programs in North Carolina, Oregon and New York—V. Stroke diagnosis: factors influencing the diagnostic evaluation of patients following acute stroke

Siegfried Weyerer and Horst Dilling 303 Psychiatric and physical illness, sociodemographic characteristics, and the use of psychotropic drugs in the community: results from the Upper Bavarian Field Study

Frank D. Ferris, Harold B. Wodinsky, Ian G. Kerr, Marcia Sone, Susan Hume and Carolyn Coons 313 A cost-minimization study of cancer patients requiring a narcotic infusion in hospital and at home

Susan A. Kaye, Aaron R. Folsom, J. Michael Sprafka, Ronald J. Prineas and Robert B. Wallace 329 Increased incidence of diabetes mellitus in relation to abdominal adiposity in older women

Second Thoughts

Douglas R. Anderson 335 Umbrellas and lions

Number 4/5

Editorial

Alvan R. Feinstein 339 Construction, consent, and condemnation in research on peer review

Commentary

Kathi J. Kemper 343 Pride and prejudice in peer review

Original Articles

Gudrun Jungquist, Bertil S. Hanson, Sven-Olof Isacsson, Lars Janzon, Bertil Steen and Sven-Eric Lindell 347 Risk factors for carotid artery stenosis: an epidemiological study of men aged 69 years

Kristian D. Lindsted, Serena Tonstad and Jan W. Kuzma 355 Self-report of physical activity and patterns of mortality in Seventh-day Adventist men

Steven J. Skates and Daniel E. Singer 365 Quantifying the potential benefit of CA 125 screening for ovarian cancer

Gina Bravo and Louise Potvin 381 Estimating the reliability of continuous measures with Cronbach's alpha or the intraclass correlation coefficient: toward the integration of two traditions

G. Ross Langley, David L. Tritchler, Hilary A. Llewellyn-Thomas and James E. Till 391 Use of written cases to study factors associated with regional variations in referral rates

Robert Michielutte, Mark B. Dignan, H. Bradley Wells, Judy Bahnson, Marie Smith, Robert Wooten and Lynn N. Hale 403 Errors in reporting cervical screening among public health clinic patients

William B. Applegate, Jeff P. Hughes and Roger Vander Zwaag 409 Case–control study of coronary heart disease risk factors in the elderly

Michael R. Tuley, Cynthia D. Mulrow and C. Alex McMahan 417 Estimating and testing an index of responsiveness and the relationship of the index to power

Theresa O. Scholl, Mary L. Hediger, Chor-San Khoo, Mary Frances Healey and Nancy L. Rawson 423 Maternal weight gain, diet and infant birth weight: correlations during adolescent pregnancy

Gail L. Shaw, Roni T. Falk, Linda W. Pickle, Thomas J. Mason and Patricia A. Buffler 429 Lung cancer risk associated with cancer in relatives

A. G. H. Kessels, R. L. L. M. Cardynaals, R. L. L. Borger, M. J. T. H. Go, J. C. C. A. Lambers, J. A. Knottnerus and P. G. Knipschild 439 The effectiveness of the hair-restorer "Dabao"® in males with alopecia androgenetica. A clinical experiment

Allan Donner and Michael Eliasziw 449 Methodology for inferences concerning familial correlations: a review

Letters to the Editors

Sandra A. Norman, Jesse A. Berlin and Evelyn O. Talbott 457 Protective effects of cervical screening

Ann C. Klassen, David D. Celentano and Ron Brookmeyer — 458 Response

James McCormick — 459 Labelling of hypertensive patients

Number 6

Commentary

Paul Knipschild, Pieter Leffers and Alvan R. Feinstein — 461 The qualification period

Original Articles

B. Balkau, L. Eschwège, P. Ducimetière, J-L. Richard and J-M. Warnet — 465 The high risk of death by alcohol related diseases in subjects diagnosed as diabetic and impaired glucose tolerant: the Paris Prospective Study after 15 years of follow-up

Claire Bonithon-Kopp, Jocelyne Raison, Monique Egloff, Bernard Guy-Grand and Pierre Ducimetière — 475 Skinfold and body circumferences as measures of body fat patterning in a French female active population: relationships with the metabolic risk profile

Stanley H. Shapiro, Peter T. Macklem, Katherine Gray-Donald, James G. Martin, Pierre P. Ernst, Sharon Wood-Dauphinee, Tom A. Hutchinson and Walter O. Spitzer — 483 A randomized clinical trial of negative pressure ventilation in severe chronic obstructive pulmonary disease: design and methods

Andrew L. Ries, Robert M. Kaplan and Elaine Blumberg — 497 Use of factor analysis to consolidate multiple outcome measures in chronic obstructive pulmonary disease

E. Robert Greenberg, John A. Baron, Bradley J. Dain, Daniel H. Freeman Jr, Jerome W. Yates and Roy Korson — 505 Cancer staging may have different meanings in academic and community hospitals

Khin Mae Hla, Gregory P. Samsa, Hal T. Stoneking and John R. Feussner — 513 Observer variability of Osler's maneuver in detection of pseudohypertension

Chai Bin Park, Eise Yokoyama and George H. Tokuyama — 519 Medical conditions at death among the Caucasian and Japanese elderly in Hawaii: analysis of multiple causes of death, 1976–78

Jaci K. Marmor, Susan A. Oliveria, Richard P. Donahue, Ellen J. Garrahie, Mary Jo White, Lynn L. Moore and R. Curtis Ellison — 531 Factors encouraging cohort maintenance in a longitudinal study

Helen H. McDuffie, David J. Klaassen and James A. Dosman — 537 Men, women and primary lung cancer—a Saskatchewan personal interview study

David S. Gray and Ken Fujioka — 545 Use of relative weight and Body Mass Index for the determination of adiposity

Kenneth M. Flegel, Tom A. Hutchinson, Patti A. Groome and Pierre Tousignant — 551 Factors relevant to preventing embolic stroke in patients with non-rheumatic atrial fibrillation

Elly Budiman-Mak, Kendon J. Conrad and Kathryn E. Roach — 561 The Foot Function Index: a measure of foot pain and disability

Teri A. Manolio, Peter J. Savage, Gregory L. Burke, Joan E. Hilner, Kiang Liu, Trevor J. Orchard, Steven Sidney and Albert Oberman — 571 Correlates of fasting insulin levels in young adults: the CARDIA study

Scott B. Halstead, Peter Tugwell and Kathryn Bennett — 579 The International Clinical Epidemiology Network (INCLEN): a progress report

Rocco Micciolo, Ottavio Bosello, Paolo Ferrari and Fabio Armellini — 591 The association of body fat location with haemodynamic and metabolic status in men and women aged 21–60 years

Letters to the Editors

James J. Diamond — 609 Cohen's kappa

Kung-Jong Lui — 609 Sample size determination in case–control studies

Gail McKeown-Eyssen and Duncan C. Thomas — 611 Response

Corrigendum — 613

Number 7

Variance and Dissent

Eduardo L. Franco, Luiz P. Kowalski and Jossi L. Kanda — 615 Presentation: Risk factors for second cancers of the upper respiratory and digestive systems: a case–control study

A. B. Miller — 627 Dissent: A valid nested case–control design?

Eduardo L. Franco and Luiz P. Kowalski — 629 Response: Design options for the study of second cancers

Original Articles

S. D. Walter, L. D. Marrett and C. Hertzman — 633 Reliability of interviewer and subject assessments of nevus counts in a study of melanoma

Richard K. Simpson Jr, Charles F. Contant, Duncan K. Fischer, David A. Cech, Claudia S. Robertson and Raj K. Narayan — 641 Epidemiological characteristics of subarachnoid hemorrhage in an urban population

Noriaki Harada, Akira Ueda and Seiji Takegata — 649 Prevalence of Raynaud's phenomenon in Japanese males and females

Paul S. Heckerling and Marion S. Verp — 657 Amniocentesis or chorionic villus sampling for prenatal genetic testing: a decision analysis

Anna Gray, Jesse A. Berlin, John B. McKinlay and Christopher Longcope — 671 An examination of research design effects on the association of testosterone and male aging: results of a meta-analysis

Edward H. Wagner, Thomas D. Koepsell, Carolyn Anderman, Allen Cheadle, Susan G. Curry, Bruce M. Psaty, Michael Von Korff, Thomas M. Wickizer, William L. Beery, Paula K. Diehr, Jenifer L. Ehreth, Barbara H. Kehrer, David C. Pearson and Edward B. Perrin — 685 The evaluation of the Henry J. Kaiser Family Foundation's Community Health Promotion Grant Program: Design

Thomas D. Koepsell, Donald C. Martin, Paula H. Diehr, Bruce M. Psaty, Edward H. Wagner, Edward B. Perrin and Allen Cheadle — 701 Data analysis and sample size issues in evaluations of community-based health promotion and disease prevention programs: a mixed-model analysis of variance approach

Ken R. Smith, Martha L. Slattery and Thomas K. French — 715 Collinear nutrients and the risk of colon cancer

Second Thoughts

Joseph Herman — 725 Anecdote and objectivity

Number 8

Editorial

Walter O. Spitzer and Alvan R. Feinstein — 727 Pharmacoepidemiology: a formal welcome

Second Thoughts

Walter O. Spitzer — 729 The structured sonnet

Variance and Dissent

C. David Naylor, J. Ivan Williams and Gordon Guyatt — 731 Presentation: Structured abstracts of proposals for clinical and epidemiological studies

Michael B. Heller — 739 Dissent: Structured abstracts: a modest dissent

C. David Naylor, J. Ivan Williams and Gordon Guyatt — 741 Response: Structured abstracts versus unstructured abstractions

Original Articles

Joan C. Cornoni-Huntley, Tamara B. Harris, Donald F. Everett, Demetrius Albanes, Marc S. Micozzi, Toni P. Miles and **Jacob J. Feldman** — 743 An overview of body weight of older persons, including the impact on mortality. The National Health and Nutrition Examination Survey I—Epidemiologic Follow-up Study

Michael S. Simon, Wendy Carman, Robert Wolfe and **David Schottenfeld** — 755 Alcohol consumption and the risk of breast cancer: a report from the Tecumseh Community Health Study

David L. Simel, Gregory P. Samsa and **David B. Matchar** — 763 Likelihood ratios with confidence: sample size estimation for diagnostic test studies

David L. Simel and **John R. Feussner** — 771 A randomized controlled trial comparing quantitative informed consent formats

G. Permanyer-Miralda, Jordi Alonso, Josep Maria Antó, M. Alijarde-Guimerá and **J. Solcr-Soler** — 779 Comparison of perceived health status and conventional functional evaluation in stable patients with coronary artery disease

Aila Rissanen, Paul Knekt, Markku Heliövaara, Arpo Aromaa, Antti Reunanen and **Jouni Maatela** — 787 Weight and mortality in Finnish women

Terry Reed, Jose Quiroga, Joseph V. Selby, Dorit Carmelli, Joe C. Christian, Richard R. Fabsitz and **C. E. Grim** — 797 Concordance of ischemic heart disease in the NHLBI twin study after 14–18 years of follow-up

Hermann Brenner, Andreas Mielck, Roland Klein and **Hartwig Ziegler** — 807 The role of socioeconomic factors in the survival of patients with colorectal cancer in Saarland/Germany

Letters to the Editors

Göran G. Jonsson, Maria Öreberg and **Kjeld West** — 817 The cholesterol trap: how doctors and patients could avoid over-evaluation of a single cholesterol value

C. David Naylor (for the Toronto Working Group on Cholesterol Policy) — 818 Response

BRIEF PHARMACOEPIDEMIOLOGY REPORTS

Editorial

Gerald A. Faich — 821 Pharmacoepidemiology and clinical research

Commentary

Walter O. Spitzer — 823 Drugs as determinants of health and disease in the population. An orientation to the bridge science of pharmacoepidemiology

Original Articles

B. Rosner and **H. G. Langford†** — 831 Judging the effectiveness of antihypertensive therapy in an individual patient

Bram Kirshner — 839 Methodological standards for assessing therapeutic equivalence

Harry A. Guess — 851 Pharmacoepidemiology in pre-approval clinical trial safety monitoring

Timo Klaukka, Sirpa Peura and **Jaana Martikainen** — 859 Why has the utilization of antiasthmatics increased in Finland?

Letters to the Editors

Tsung O. Cheng — 865 Baldness and coronary disease

Carlos R. Herrera — 865 Response

Number 9

Editorial

Jerry Avorn — 867 Epidemiology in Plato's cave: claims data and clinical reality

Variance and Dissent

Carl C. Seltzer — 871 Presentation: The negative association in women between cigarette smoking and uncomplicated angina pectoris in the Framingham Heart Study data

Lewis H. Kuller and Elaine Meilahn — 877 Dissent

Carl C. Seltzer — 879 Response

Original Articles

Leslie L. Roos, Sandra M. Sharp and Marsha M. Cohen — 881 Comparing clinical information with claims data: some similarities and differences

Jaime Latour, Vicent López, Manuel Rodriguez, Andreu Nolasco and Carlos Alvarez-Dardet — 889 Inequalities in health in intensive care patients

James R. Jauchem and James H. Merritt — 895 The epidemiology of exposure to electromagnetic fields: an overview of the recent literature

A. R. Walker, D. K. Whynes, J. O. Chamberlain and J. D. Hardcastle — 907 The hospital costs of diagnostic procedures for colorectal cancer

Lawrence H. Moulton and Monique G. Lê — 915 Latency and time-dependent exposure in a case–control study

Kathryn A. Phillips — 925 The use of meta-analysis in technology assessment: a meta-analysis of the enzyme immunosorbent assay human immunodeficiency virus antibody test

Paul Knekt, Antti Reunanen, Kari Aho, Markku Heliövaara, Aila Rissanen, Arpo Aromaa and Olli Impivaara — 933 Risk factors for subarachnoid hemorrhage in a longitudinal population study

Carel Thijs, Paul Knipschild and Pieter Leffers — 941 Does alcohol protect against the formation of gallstones? A demonstration of protopathic bias

Edith J. M. Feskens, Carel H. Bowles and Daan Kromhout — 947 Intra- and interindividual variability of glucose tolerance in an elderly population

Second Thoughts

Rodolfo Valdez — 955 A simple model-based index of abdominal adiposity

David Hemenway — 957 The second best in statistics

Letters to the Editors

J. D. Lawrence — 961 White blood count and hypertension

Gary D. Friedman, Joseph V. Selby and Charles P. Quesenberry Jr — 961 Response

W. W. Holland — 962 Clinical epidemiology and the use of words

C. David Naylor — 963 Response

Comment to the Editors

David L. Simel, David B. Matchar and John R. Feussner — 967 Diagnostic tests are not always black or white: or, all that glitters is not [A] gold [standard]

Alvan R. Feinstein — 970 Response

David L. Sackett — 970 Response

BRIEF PHARMACOEPIDEMIOLOGY REPORTS

Original Articles

Chad Boult, Robert L. Kane, Thomas A. Louis and Joseph G. Ibrahim — 973 Forecasting the number of future disabled elderly using Markovian and mathematical models

Adrian Wilson, Ingela Wiklund, Timo Lahti and Martine Wahl — 981 — A summary index for the assessment of quality of life in angina pectoris

Aulikki Nissinen, Ingela Wiklund, Timo Lahti, Juha Akkila, Adrian Wilson, Martine Wahl and Pekka Puska — 989 — Anti-anginal therapy and quality of life. A comparison of the effects of transdermal nitroglycerin and long-acting oral nitrates

Number 10

Commentary

William E. Stehbens — 999 — Imprecision of the clinical diagnosis of coronary heart disease in epidemiological studies and atherogenesis

Original Articles

Saeko Fujiwara, Shoichi Mizuno, Yoshimichi Ochi, Hideo Sasaki, Kazunori Kodama, Walter J. Russell and Yutaka Hosoda — 1007 — The incidence of thoracic vertebral fractures in a Japanese population, Hiroshima and Nagasaki, 1958–86

Siobán D. Harlow and Scott L. Zeger — 1015 — An application of longitudinal methods to the analysis of menstrual diary data

Vidya Bhushan and Nigel Paneth — 1027 — The reliability of neonatal head circumference measurement

Mark Linzer, Michele Pontinen, Deborah T. Gold, George W. Divine, Alonzo Felder and W. Blair Brooks — 1037 — Impairment of physical and psychosocial function in recurrent syncope

Malcolm Maclure — 1045 — Taxonomic axes of epidemiologic study designs: a refutationist perspective

A. Micheli, P. Muti, P. Pisani, G. Secreto, C. Recchione, A. Totis, R. Fissi, A. Cavalleri, S. Panico and F. Berrino — 1055 — Repeated serum and urinary androgen measurements in premenopausal and postmenopausal women

Peter Pompei, Mary E. Charlson, Kathy Ales, C. R. MacKenzie and Margaret Norton — 1063 — Relating patient characteristics at the time of admission to outcomes of hospitalization

Robin B. Harris and Lisa A. Weissfeld — 1071 — Gender differences in the reliability of reporting symptoms of angina pectoris

Ralph E. Tarter, JoAnn Switala, Amelia Arria and David H. Van Thiel — 1079 — Impact of liver disease on daily living in transplantation candidates

Antoni Basinski and C. David Naylor — 1085 — Aspirin and fibrinolysis in acute myocardial infarction: meta-analytic evidence for synergy

Grethe S. Tell, Jacqueline E. Ryu, Corleen J. Thompson, Frederic R. Kahl, Timothy E. Craven, Mark Espeland, Amy P. Hagaman, Gerardo Heiss and John R. Crouse, III — 1097 — Comparison of hospital and neighborhood controls in a study of coronary artery disease

Christopher A. Silagy, Katrina Campion, John J. McNeil, Bernard Worsam, Geoffrey A. Donnan and Andrew M. Tonkin — 1105 — Comparison of recruitment strategies for a large-scale clinical trial in the elderly

Second Thoughts

Richard V. Lee — 1115 — Taking things apart and the art of arrangement

Letters to the Editors

Jan-Joost Rethans — 1119 — Validity of case simulations

Thomas V. Jones — 1120 — Response

Dorly J. H. Deeg — 1122 — Models, data and analyses

T. Wilcosky and S. Bangdiwala — 1123 — Response to Dr Deeg

Alfred A. Rimm — 1124 — Response to Dr Deeg: Analysis paralysis: models and data revisited

T. Wilcosky — 1125 — Response to Dr Rimm: Reviewer paralysis

Number 11

Commentary

Jack Froom and Paul Froom — 1127 "Prudence" in disease prevention

Original Articles

Rafn Benediktsson, Ólafur Eyjolfsson and Gudmundur Thorgeirsson — 1131 Natural history of chronic left ventricular aneurysm; a population based cohort study

Donald A. Redelmeier, Daniel A. Bloch and David H. Hickam — 1141 Assessing predictive accuracy: how to compare Brier scores

Birthe Krogh Rasmussen, Rigmor Jensen, Marianne Schroll and Jes Olesen — 1147 Epidemiology of headache in a general population—a prevalence study

Julia C. Emerson, Kathleen E. Malone, Janet R. Daling and Patricia Starzyk — 1159 Childhood brain tumor risk in relation to birth characteristics

Michael Schulzer, Douglas R. Anderson and Stephen M. Drance — 1167 Sensitivity and specificity of a diagnostic test determined by repeated observations in the absence of an external standard

Sari Anttila — 1181 Functional capacity in two elderly populations aged 75 or over: comparisons at 10 years' interval

David Strachan and Geoffrey Rose — 1187 Strategies of prevention revisited: effects of imprecise measurement of risk factors on the evaluation of "high-risk" and "population-based" approaches to prevention of cardiovascular disease

Susan Y. Chu, Nancy C. Lee, Phyllis A. Wingo, Ruby T. Senie, Raymond S. Greenberg and Herbert B. Peterson — 1197 The relationship between body mass and breast cancer among women enrolled in the Cancer and Steroid Hormone Study

Andrea M. Kriska, Ronald E. LaPorte, Sarah L. Patrick, Lewis H. Kuller and Trevor J. Orchard — 1207 The association of physical activity and diabetic complications in individuals with insulin-dependent diabetes mellitus: the Epidemiology of Diabetes Complications Study—VII

Robert J. Connor, Philip C. Prorok and Douglas L. Weed — 1215 The case–control design and the assessment of the efficacy of cancer screening

Andrew N. Phillips and George Davey Smith — 1223 How independent are "independent" effects? Relative risk estimation when correlated exposures are measured imprecisely

Joel Coste, Alfred Spira, Pierre Ducimetiere and Jean-Baptiste Paolaggi — 1233 Clinical and psychological diversity of non-specific low-back pain. A new approach towards the classification of clinical subgroups

Annette J. Dobson, Hilary M. Alexander, Richard F. Heller and Deborah M. Lloyd — 1247 How soon after quitting smoking does risk of heart attack decline?

Suminori Kono, Koichi Shinchi, Nariaki Ikeda, Fumio Yanai and Koji Imanishi — 1255 Physical activity, dietary habits and adenomatous polyps of the sigmoid colon: a study of self-defense officials in Japan

Scott R. Brazer, Frank S. Pancotto, Thomas T. Long III, Frank E. Harrell Jr, Kerry L. Lee, Malcolm P. Tyor and David B. Pryor — 1263 Using ordinal logistic regression to estimate the likelihood of colorectal neoplasia

Andrew D. Oxman and Gordon H. Guyatt — 1271 Validation of an index of the quality of review articles

Letters to the Editors

Les Irwig and Paul Glasziou — 1279 Trichotomous decisions do not imply trichotomous tests

Alvan R. Feinstein — 1280 Response

K. Raphael — 1281 Differential recall as a source of bias

R. Neugebauer and S. Ng — 1282 Response

Number 12

Editorial

S. M. MacLeod — 1285 — Pharmacoepidemiology: a health imperative

Commentary

Mark A. Hlatky and Alice S. Whittemore — 1287 — The importance of models in the assessment of synergy

Original Articles

Jon J. Jonsson, Gudmundur M. Johannesson, Nikulas Sigfusson, Bjarki Magnusson, Bjarni Thjodleifsson and Sigmundur Magnusson — 1289 — Prevalence of iron deficiency and iron overload in the adult Icelandic population

S. D. Walter — 1373 — Statistical significance and fragility criteria for assessing a difference of two proportions

Zheng Guomin, Bernard C. K. Choi, Yu Xinru, Zou Rongbi, Shao Yuwen and Ma Xinyan — 1379 — Mass screening for rectal neoplasm in Jiashan county, China

L. B. Sheiner, M. J. Easterling, B. Mozes and A. Brown — 1387 — Laboratory data predicts survival post hospitalization

M. Woodward, H. Tunstall-Pedoe, W. C. S. Smith and R. Tavendale — 1405 — Smoking characteristics and inhalation biochemistry in the Scottish population

Hugh Tunstall-Pedoe, Mark Woodward and C. A. Brown — 1411 — Tea drinking, passive smoking, smoking deception and serum cotinine in the Scottish Heart Health Study

Supplement I

ETHICS IN EPIDEMIOLOGY

William E. Fayerweather, John Higginson and Tom L. Beauchamp — V — Preface

B. W. Karrh — 1S — Opening remarks

SESSION I: BIOETHICS AND EPIDEMIOLOGY

Tom L. Beauchamp — 5S — Ethical theory and epidemiology

Leon Gordis — 9S — Ethical and professional issues in the changing practice of epidemiology

Douglas L. Weed — 15S — The merger of bioethics and epidemiology

SESSION II: CONDUCTING AND INTERPRETING EPIDEMIOLOGIC RESEARCH IN DIFFERENT ORGANIZATIONAL CONTEXTS

Paul D. Stolley	23S	Ethical issues involving conflicts of interest for epidemiologic investigators. A report of the Committee on Ethical Guidelines of the Society for Epidemiologic Research
Kenneth J. Rothman	25S	The ethics of research sponsorship
Gregory G. Bond	29S	Ethical issues relating to the conduct and interpretation of epidemiologic research in private industry
Philip Cole	35S	The epidemiologist as an expert witness

SESSION III: ETHICAL CONSIDERATIONS AND RESPONSIBILITIES WHEN COMMUNICATING HEALTH RISK INFORMATION

Peter M. Sandman	41S	Emerging communication responsibilities of epidemiologists
John Higginson and **Flora Chu**	51S	Ethical considerations and responsibilities in communicating health risk information
Paul A. Schulte	57S	Ethical issues in the communication of results
Gary H. Spivey	63S	Health risk communication—a view from within industry
Albert R. Jonsen	69S	Ethical considerations and responsibilities when communicating health risk information

SESSION IV: THE EPIDEMIOLOGIST'S RESPONSIBILITIES TO RESEARCH SUBJECTS

Manning Feinleib	73S	The epidemiologist's responsibilities to study participants
A. M. Capron	81S	Protection of research subjects: do special rules apply in epidemiology?
William E. Thar	91S	The epidemiologist's responsibilities to research subjects in the occupational setting
John M. Last	95S	Obligations and responsibilities of epidemiologists to research subjects

SESSION V: ETHICAL ISSUES OF DATA ACCESS AND OF INTERPRETATION, PRESENTATION AND PUBLICATION OF SCIENTIFIC EVIDENCE

Carol J. R. Hogue	103S	Ethical issues in sharing epidemiologic data
Moyses Szklo	109S	Issues in publication and interpretation of research findings
G. M. Paddle	115S	Objectives and interpretations

SESSION VI: APPROACHES FOR THE FUTURE

Alvan R. Feinstein	119S	Scientific paradigms and ethical problems in epidemiologic research
Colin L. Soskolne	125S	Ethical decision-making in epidemiology: the case study approach
John S. Andrews Jr	131S	Does good peer review assure good epidemiology?
Ralph R. Cook	135S	Code of ethics for epidemiologists

SESSION VII: AN ETHICAL CODE FOR EPIDEMIOLOGISTS

Irving J. Selikoff	141S	Statistical compassion
Brian MacMahon	147S	A code of ethical conduct for epidemiologists?

APPENDIX

Tom L. Beauchamp, Ralph R. Cook, William E. Fayerweather, Gerhard K. Raabe, William E. Thar, Sally R. Cowles and **Gary H. Spivey**	151S	Ethical Guidelines for Epidemiologists

Supplement II

PHARMACOEPIDEMIOLOGY IN DEVELOPING COUNTRIES

Calvin M. Kunin	1S	Overview of the Conference: pharmacoepidemiology in developing countries
Gaspar K. Munishi	7S	The development of the Essential Drugs Program and implications for self-reliance in Tanzania
Lateef A. Salako	15S	Drug supply in Nigeria
Adauto Castelo, Arnaldo Lopes Colombo and **Anne M. Holbrook**	21S	Production and marketing of drugs in Brazil
Renato B. Dantes	29S	The new Philippine Generic Drugs Act: a physician's viewpoint
David Lee	31S	Drug utilization in Panama
Iwan Darmansjah and **Srimarti Wardhini**	39S	The Indonesian Drug Advisory Committee and the drug approval process
Margaret Cone	45S	Activities of the International Federation of Pharmaceutical Manufacturers' Associations in world health
Philip R. Lee, Peter Lurie, Milton M. Silverman and **Mia Lydecker**	49S	Drug promotion and labeling in developing countries: an update
Jonathan D. Quick, Richard O. Laing and **Dennis G. Ross-Degnan**	57S	Intervention research to promote clinically effective and economically efficient use of pharmaceuticals: the International Network for Rational Use of Drugs
Goran Sterky, Goran Tomson, Vinod Kumar Diwan and **Lisbeth Sachs**	67S	Drug use and the role of patients and prescribers
Nick Higginbotham and **David L. Streiner**	73S	The social science contribution to pharmacoepidemiology
Stuart B. Levy	83S	Antibiotic availability and use: consequences to man and his environment
Stuart M. MacLeod	89S	Clinical pharmacology and optimal therapeutics in developing countries: aspirations and hopes of the Pediatric Clinical Pharmacology Subcommittee
Michael C. Gerald	95S	National drug policy and rational drug use: a model curriculum for developing countries
Harry A. Guess, Charles H. Goldsmith, David Henry and **Brian L. Strom**	101S	Pharmacoepidemiology as a focus for clinical epidemiology in developing countries
